No. Scores come from a free public service.

What you'll see

The screens rotate on their own. When one of your teams is playing, the live match stays on screen until it ends.

Live	Match minute, score, scorers, cards, shots and possession. Flashes GOAL! and RED CARD
Next match	Countdown to kick-off, recent form, stadium, last result
Full-time	Final score, who scored, and your team's new league position
Table	League table around your team, in team colours
Around the world	Today's scores from other leagues

The strip along the bottom scrolls goals, cards and upcoming matches.

Using it

Tap the screen to jump to the next screen.

SET (top right): **My teams** - add or remove teams; **Settings** - Wi-Fi, touch calibration, sound and the rest (Home > Settings); **Time zone** - tap to cycle through them; **Home** - back to the Home screen; **Demo** - every screen with sample matches; **Done** - back to the scores.

If something's off

Why does it take a while to show data? Please be patient.
Every time it opens, or when you leave the SET menu, it downloads fresh matches, tables and team logos. It can take a few seconds, and up to a couple of minutes the first time, before every screen is filled in. That's normal - it isn't stuck.

Taps land on the wrong key	Home > Settings > Cal
Wrong clock time	SET > Time zone
Red dot next to the clock	Wi-Fi dropped - it reconnects by itself
Grey circles instead of logos	Logos download over the first few minutes
"Loading matches" for a long time	Check Wi-Fi, then unplug and plug back in

Scores come from ESPN. Not affiliated with any league or club.
